

Professor Shi-Lun Qiu
Jilin University
China

March 18, 2017

Dear Professor Qiu,

9th International Conference on Materials for Advanced Technologies
Invitation to speak at **Nanomaterial for advanced energy and environmental applications**

On behalf of the organising committee, I cordially invite you to be an Invited Speaker at the **9th International Conference on Materials for Advanced Technologies (ICMAT 2017)**, scheduled to be held from **18 – 23 June 2017** in Singapore. (<http://icmat2017.mrs.org.sg>)

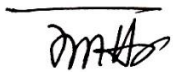

The International Conference on Materials for Advanced Technologies, or more commonly known as ICMAT, is a major biennial event organized by The Materials Research Society of Singapore (MRS-S).

Started in 2001, ICMAT has become an established international conference in the field of materials research. It provides the major forum to discuss the latest developments and fosters collaboration between materials scientists. The fact that ICMAT 2017 will be the 9th in the series and attracted more than 20 Nobel Laureates speaks volumes about the success of the series in sustaining the interest among the materials research community worldwide.

ICMAT 2017 features 9 plenary lectures, 4 theme lectures and 30 technical symposia, each focusing on a specific research area in materials science, with the expected participation of 2,500+ delegates from about 50+ countries. We are honoured to invite you to participate the conference and present your cutting-edge research result with international scientists, and to feel the dynamism and share our ideas in advancing materials research in Asia

We appreciate if you can respond as soon as possible to this invitation.

Yours sincerely,

Hong Jin FAN,

School of Physical and Mathematical Sciences
Nanyang Technological University
Symposium Chair of ICMAT 2017, Singapore
